

Custom Shaped Flags

Create unique eye-catching flags shapes that are individual to you. Perfect when you want to attract more brand interest or stand out in a crowd.

Custom flags use existing flag pole hardware. Artwork designs can exceed the standard flag templates by 5% on the open side or shapes can be achieved by cutting into the template. All custom flags are laser cut to provide an optimum edge and are finished by our experienced finishing team.

Ideal for Product Launches

Fantastic for Festivals

Use for Play Areas

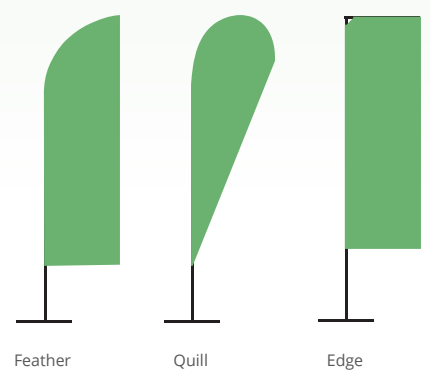

Great for Christmas Markets

Your unique flag can be used on Feather, Quill and Edge hardware which are available in a range of sizes. Alternatively, send us your own graphic template and we'll print and finish it to third-party hardware.

Use indoor or outdoor

Pick a flag shape that suits your custom design.

Please note, custom flags are only available single sided.
